On behalf of 1st Baptist Church in Lake Alfred, I would like to again thank the generous people of Sweetwater for their support for our youth and our food pantry. Our Youth attend church camps in the summer and our food pantry passes out food on the 2nd and 4th Thursday’s of the month. Each individual or organization who donate either articles to be sold or monetary contributions are blessed because you bless others. Thanks is not enough but it is all I can say.

Willie & Marcy Dement

NEW SOCIAL CLUB OFFICERS
FOR 2020-2022
PRESIDENT: JULIANNE BERDINI
VICE PRESIDENT: MARY SLEVINSKI
SECRETARY: SUE CARLSON
TREASURER: LOIS STEINIGER
ADVISOR: BONNIE LAPRISE (3 YEAR TERM)

CONGRATULATIONS TO THE NEW SLATE AND BEST WISHES FOR THE FUTURE!

PLEASE DO NOT PUT WIPES OR DEPENDS IN YOUR TOILETS. THEY CAUSE A LOT OF DAMAGE TO OUR WASTE PLANT. IT IS VERY EXPENSIVE TO CONTINUOUSLY HAVE TO CALL FOR REPAIRS. THE ONLY THING YOU SHOULD BE FLUSHING IS TOILET PAPER!

ATTENTION
SWEETWATER RESIDENTS

Because of the new CDC guidelines and State of Florida mandates, there will be no Social Club events happening in Sweetwater through May, 2020. We appreciate your understanding and acceptance of these conditions. Scheduled events for June, July and August 2020 are not affected at this time.

Hopefully, we will be back to business as usual with a full schedule in the fall.

Stay well and remain cautious.

Social Club Officers
Homeowners are responsible for informing renters and/or guests on the Sweetwater Rules & Regulations. As an owner, you are responsible for the conduct and decorum for all persons either visiting or renting your property. Submitted by the Sweetwater Board of Directors.

RULES & REGULATIONS

1. All golf carts must have the lot or house number in 3" numbers at the front corners of the golf cart. See 5D.

2. Overnight parking is limited to the owner's driveway and areas designated by the BOD. Overnight parking on any street shall not be permitted. See 5F.

3. Driving or parking of any vehicle on the grass, sidewalks, pool decks or parking on the golf course is strictly prohibited. See 5G

4. No child under the age of sixteen (16) shall be permitted into the clubhouse, pro shop, tennis courts, pool or other recreational areas, unless accompanied by a resident of registered renter who shall assume complete responsibility and liability for the actions and safety of such child. See 6A.
Board of Directors Meeting Minutes
@ Clubhouse, Friday March 20, 2020 3:00 PM

Prior to the meeting starting Mike stated due to the Corona Virus, we would not have a large group present at this meeting. This is live broadcast on Facebook.

President Mike Kahn called the meeting to order at 3:00 PM. Secretary Jeanette DeLisi gave proof of due notice, roll call was taken, constituting a quorum.

Present: Mike Kahn, Jeanette DeLisi, Ruth Freer, Steve Garde, Lewis Massad and Nancy Hasselmann.

Steve Gade made a motion to waive the reading of the minutes from the January 16, 2020 Board of Directors meeting and to approve them as posted. The motion was seconded by Ruth Freer the motion passed unanimously.

Steve Gade moved to accept the Treasurers report as presented (as posted on bulletin board in the Clubhouse) seconded by Jeanette DeLisi and passed unanimously.

Old Business: None for this meeting.

Jeanette DeLisi read the letter of resignation from Larry Bearfield. Mike Kahn thanked Larry for all his years of dedicated service to Sweetwater especially with the WWTP.

New Business:
- Motion by Jeanette DeLisi to accept the resignation of Larry Bearfield. Seconded by Steve Gade and passed unanimously.
- Motion by Jeanette DeLisi to appoint Frank Phelka to the Board of Directors until the 2021 election. Seconded by Ruth Freer and passed unanimously.
- Motion by Jeanette DeLisi to appoint the Grievance Committee of Dennis Graffious-Chairperson, Russell Reints, Lois Steinger, Perry Harkness, Bob Shea, Anna Records and Cliff Jackman with Jeanette DeLisi as Board Liaison. Seconded by Nancy Hasselmann and passed unanimously.
- Motion by Jeanette DeLisi to appoint the Rules & Regulations Committee of Jan Swayze-Chairperson, Jim Morrison, Frank Phelka, Karen Roy, Kay Severson, Don Morris and Judy Patterson with Jeanette DeLisi as Board Liaison. Seconded by Lewis Massad and passed unanimously.
- Motion by Jeanette DeLisi to make a Board Policy to include Renter's and Guests in the pet rule and not to permit dog's running along side of golf carts. Seconded by Lewis Massad and passed unanimously.
- Motion by Ruth Freer to appoint Cliff Jackman as Assistant Treasurer. No second was made, motion was tabled.
- Motion by Ruth Freer to appoint the Finance Committee of Ruth Freer-Chairperson, Brandon Pryor, Ray White, Bruce Julin, Cliff Jackman, Steve Wellman, Jan Swayze, Lois Steinger, Fred Mullin and Ruth Freer as Board Liaison. Seconded by Steve Gade and passed unanimously.
- Motion by Mike Kahn to install a new pool pump and reconfigure existing plumbing by Complete Pool Care for a cost of $6784.50 coming out of Reserves. Seconded by Ruth Freer and passed unanimously.

Announcements:
- At the previous informational meeting some discussion about filing a suit with another person that may have an intent. We discussed with our attorney and he gave a couple of options. At this time he strongly recommends not to move forward with any type of law suit. The BOD was unanimous in this decision.
- The virus has closed down quite a bit of the community trying to keep ourselves safe. Most activities have been cancelled. We are following the recommendations for the CDC and the state to wash your hands, stay away from close quarters and limit the amount of people you are around. It is difficult. If you are expecting company, possibly suggest they reconsider as all attractions are closed in the area.
There being no other business before the Board Ruth Freer made a motion to adjourn and it was seconded by Lewis Massad. The motion carried and the meeting adjourned at 3:15 PM.

**Next Meetings:**
The next Board of Director informational meeting will be Friday April 10th at 3:00 PM and the Board of Director Meeting will be Friday April 17th at 3:00 in the Ballroom.

Respectfully Submitted
Jeanette DeLisi, Secretary

---

**Keeping the home safe**
Encourage your family members to...

- **All households**
  - Clean hands at the door and at regular intervals
  - Create habits and reminders to avoid touching their face and cover coughs and sneezes
  - Disinfect surfaces like doorknobs, tables, and handrails regularly
  - Increase ventilation by opening windows or adjusting air conditioning

- **Households with vulnerable seniors or those with significant underlying conditions**
  - Significant underlying conditions include heart, lung, kidney disease; diabetes; and conditions that suppress the immune system
  - Have the healthy people in the household conduct themselves as if they were a significant risk to the person with underlying conditions. For example, wash hands frequently before interacting with the person, such as by feeding or caring for the person
  - If possible, provide a protected space for vulnerable household members
  - Ensure all utensils and surfaces are cleaned regularly

- **Households with sick family members**
  - Give sick members their own room if possible, and keep the door closed
  - Have only one family member care for them
  - Consider providing additional protections or more intensive care for household members over 65 years old or with underlying conditions

What every American and community can do now to decrease the spread of the coronavirus
**BOARD OF DIRECTORS INFORMATIONAL MEMO**

The (7) members of the Sweetwater Board of Directors each have their areas of responsibility. Here is a listing of our BOD and their areas of responsibility. If you have any questions or problems with (or about) one of these areas please contact the Board Member appointed to that area. Thank you and we hope this information helps you.

**AREAS OF RESPONSIBILITIES AND COMMITTEES**

Sweetwater Book Club

We have chosen our next five books and our meeting dates for each. Join us! A great discussion is promised! All are welcome!

We meet in the craft room at 7PM, the first Tuesday and the third Tuesday of each month,

March 24th - The Oysterville Sewing Circle by Susan Wiggs

April 7th - The Guernsey Literary and Potato Peel Pie Society by Mary Ann Shaffer

April 21st - Next Year in Havana by Chanel Cleeton

May 5th - When We Believed in Mermaids by Barbara O'Neal

May 19th - Upstairs at the White House: My Life with the First Ladies by J. B. West, Mary Lynn Kotz
Sweetwater Golf Board of Directors Presents

**APRIL FOOLS TOURNAMENT**

Wednesday, April 1st
Tee Off: 9:00 AM
$7.00 per player

Shenanigan Doubles Scramble
You Play with Your Own Partner
“Fun” Format to be Announced

**Expect Lots & Lots of Surprises**

**50/50 Tickets (2-Winners) Will Be Available**

Sign Up for Golf by March 30th
Pay for golf at time of play.

Questions? Any Golf Board Member
2019 Quality Water Report
Sweetwater Community, Inc.
PWS Number 653-5171

We're very pleased to provide you with this year's Annual Water Quality Report. We want to keep you informed about the excellent water and services we have delivered to you over the past year. Our goal is and always has been, to provide to you a safe and dependable supply of drinking water. Our water source is ground water from two (2) wells. The wells draw from the Floridan Aquifer. Our water is obtained from ground water sources and is chlorinated for disinfection purposes.

The Department of Environmental Protection performed a Source Water Assessment in 2019 on our system. These assessments were conducted to provide information about any potential sources of contamination in the vicinity of our wells. There are three (3) potential sources of contamination identified for this system—a Delineated Area with a susceptibility score of 33.33 and a Moderate level of concern—Two (2) domestic wastewater Facility & Site with susceptibility score of 0.03 and a low level of concern. The assessment results are available on the FDEP Source Water Assessment and Protection Program website at www.dep.state.fl.us/swapp.

This report shows our water quality results and what they mean. If you have any questions about this report or concerning your water utility, please contact Larry Bearfield at 863-965-3822. We encourage our valued customers to be informed about their water utility.

Sweetwater Community routinely monitors for contaminants in your drinking water according to Federal and State laws, rules, and regulations. Except where indicated otherwise, this report is based on the results of our monitoring for the period of January 1, 2019 to December 31, 2019. Data obtained before January 1, 2019, and presented in this report are from the most recent testing done in accordance with the laws, rules, and regulations.

In the table below, you may find unfamiliar terms and abbreviations. To help you better understand these terms we've provided the following definitions:

Maximum Contaminant Level or MCL: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal or MCLG: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment or other requirements that a water system must follow.

Maximum residual disinfectant level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum residual disinfectant level goal or MRDLG: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Parts per million (ppm) or Milligrams per liter (mg/l) – one part by weight of analyte to 1 million parts by weight of the water sample.

Parts per billion (ppb) or Micrograms per liter (µg/l) – one part by weight of analyte to 1 billion parts by weight of the water sample.

Picocurie per liter (pCi/L) - measure of the radioactivity in water.

N/A: Does not apply.
## NON-SECONDARY CONTAMINANTS TABLE

### Radiological Contaminants

Results in the Level Detected column for radioactive contaminants, inorganic contaminants, synthetic organic contaminants including pesticides and herbicides, and volatile organic contaminants are the highest average at any of the sampling points or the highest detected level at any sampling point, depending on the sampling frequency.

### Stage 2 Disinfectants and Disinfection By-Products

For bromate, chloramines, or chlorine, the level detected is the the highest running annual average (RAA), computed quarterly, of monthly averages of all samples collected. The range of results is the range of results of all the individual samples collected during the past year.

For haloacetic acids or TTHM, the level detected is the highest LRAA, computed quarterly, of quarterly averages of all samples collected if the system is monitoring quarterly or is the average of all samples taken during the year if the system monitors less frequently than quarterly. Range of Results is the range of individual sample results (lowest to highest) for all monitoring locations.

In 2019 we exceeded the MCL for TTHM. We would be monitoring quarterly for this contaminant until directed by DEP to discontinue quarterly sampling.

**TTHM (Total Trihalomethanes).** Some people who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous systems, and may have an increased risk of getting cancer.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

**Contaminants that may be present in source water include:**

(A) Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

(B) Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

(C) Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.

(D) Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.

(E) Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, the EPA prescribes regulations, which limit the amount of certain contaminants in water provided by public water systems. The Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency’s Safe Drinking Water Hotline at 1-800-426-4791.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791)

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. New River Ranch is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at [http://www.epa.gov/safewater/lead](http://www.epa.gov/safewater/lead)

We at Sweetwater Community would like you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. If you have any questions or concerns about the information provided, please feel free to call any of the numbers listed.

Think you can beat the clock?

Do you trust your GPS or do you always assume you can get there just a little bit faster? Arriving to a birthday party a few minutes late isn't usually a big deal, but overestimating your control as an investor can potentially lead to serious problems for you and your finances.

Many of us are guilty of overconfidence at one point or another. Say you check directions and see that it will take 17 minutes to get to your destination and think, "Okay, great. I can make it in 15." Sound familiar?

We all have subconscious biases, but that doesn't mean they need to get in the way of your financial success. As a financial advisor, I can help you set up guardrails against your own biases and give you the tools and education you need to manage your hard-earned wealth with confidence.

In addition to providing personalized financial guidance, I also serve as a knowledgeable resource and accountability partner for my clients, helping them to stay on track for their long-term goals.

How can I help you reach yours?
